

Davenport Elementary School

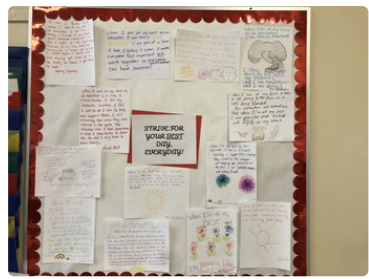

School Board Report January 2020

2020 Vision: Success For ALL!

It's been a fun, busy month of learning at Davenport Elementary School. Our students came back refreshed from Winter Break on January 6th. Our teachers worked diligently to prepare rigorous lessons upon the return of the students and students hit the ground running! We have finished our winter MAP testing, and are analyzing growth patterns and gaps for all of our students. We have finished first semester, and are working towards greatness and success for the second.

Our staff is working hard with the goal for the elementary school being 2020 Vision: Success For All! Being an elementary school, we are the foundation and building blocks for students as they move into our middle school and high school system. We are continually refining what success looks like for all at each grade level, and differentiating for the needs of ALL students that walk through our door.

We have worked very hard on our ELA Curriculum Adoption, spending hours reviewing samples, viewing webinars, discussing, trying lessons, talking to publishers, etc. The elementary staff has met with the 6-12 ELA PLC as well, making sure alignment will take place for students moving into upper grade levels. We have narrowed the choices today, and a survey will go out this week for final selection. We look forward to have a more viable curriculum to move our students to proficiency in ELA.

Be Your Best, Everyday!

At a staff meeting in early January, staff members created a metaphor of themselves on their very best day of teaching. They are hanging in our staff lounge as a reminder of how we can be our best, everyday!

K-12 Science Fair, Coming Soon!

Our Bi-Annual Showcase of Learning: Options and Opportunities in the Davenport School District will be held on March 19, 2020. Our Science 3CI team is working to put together a K-12 Science Fair for students, families, and classrooms. Save the Date!

FBLA Kids Heart Challenge

On Friday January 31, 2020 the P-5 students will work with students from the High School FBLA to learn about heart health. They will learn heart health facts, complete a jump rope challenge and work on locomotor skills. Mr. Young will work with students during PE all week teaching them about the flow of blood throughout the heart through the "Journey of the Heart" Game.

Davenport Elementary LOVES our School Board!

January is School Board Appreciation Month! On behalf of everyone at Davenport Elementary School, we THANK YOU! Your behind the scenes service is much appreciated this month, and every month!

Thank you Deanna, Brad, Heather, Tami, and Garrett!
