To: Stephanie Linstrum <slinstrum@davenportsd.org>, Jamie Manchester <jmanchester@davenportsd.org>, Dana Telecky <dtelecky@davenportsd.org>

List as of 5/19/2022

1. MS Lab / MS basement room
 - a. qty 25 Acer monitors model: S200HL, no power, requires external power supply
 - b. qty 5 dell
 - c. 44 Acer monitor model P206HL, internal power, could come with cords
 - d. 25 HP desktops
 - e. 5 dell desktops
2. GS IDF
 - a. 15 HP desktops
3. HS MDF
 - a. 18 computers mix of HP/Dell desktops
 - b. 2 printers
 - c. 6 projectors
 - d. roughly 10 non-poe gb extreme switches

I see no value in any of the desktops, printers, switches and would like to just dispose/recycle as needed

There is value in the projectors, and monitors. but very minimal as the projectors are older and dim, and the S200HL monitor has no power supply. I find power supplies for them for about \$10 on amazon. If we surplus and you want a value...I would say no more than about \$5ea...

Regards,

Matt Feider
